

IYCF Multi-sectoral Training - Handout: Conceptual Framework & Risks Activity

Conceptual Framework

Step 4: Equip and design actions

Train multisector partners, equip champions and design action plan

The risks (to be cut-out)

Low food stocks	Disrupted markets	Long distances to access firewood	Lack of family support
Sale of household assets	No food aid/assistance	Community networks broken down	Lack of privacy
Lower crop yields	Animals have to travel further away from the household	Crowded living conditions	No primary healthcare services
Local water points dried up	No safe drinking water source	No sexual and reproductive health services	Inadequate number of health workers to meet the needs of the population
Lack of sanitation facilities	Household caring for additional children	Health workers not adequately trained	Unaccompanied, separated or orphaned children
Loss of household items	Stress and trauma		

Step 4: Equip and design actions

Train multisector partners, equip champions and design action plan
